NASA MOSSES Blanket Purchase Agreement: NNH12CD13Z

Get knowledgeable, experienced support for your management, organizational, scientific, and engineering requirements

NASA MOSSES BPA: NNH12CD13Z

The National Aeronautics and Space Administration (NASA) is currently engaged in various initiatives aimed at positioning programs for maximum efficiency. These initiatives are designed to arm Program Management with tools, practices, and processes for better execution of programs.

NASA's Office of the Chief Engineer (OCE) and Office of Independent Program & Cost Evaluation (IPCE) awarded this BPA to Valador, Inc. to provide a contract vehicle where NASA organizations can seek assistance with:

- Developing new program concepts
- Conducting objective studies and analyses
- Supporting program decision making
- Assessing status and performance of initiatives
- Supporting organizational evolution

Valador Services

This BPA provides NASA organizations with rapid access to the following types of services from Valador:

- Executive Consultation
- Engineering/science experts (safety, reliability, cost/benefit, project management, etc.)
 - Management, engineering, scientific reports
 - Studies and special teams support
 - Organizational and business improvement support

- Independent Engineering Analyses
- Specialized engineering assessments/analyses:
 - Readiness Reviews
 - Design Reviews/Assessments
 - System/sub-system design assessments
 - Modeling and simulation
 - Cost benefit analyses

- Management Services
- Implementation of crisis response plans
 - Strategic planning and program risk identification
 - Full cost accounting transition and standardization
 - Tiger Team and workgroup facilitation
 - Program effectiveness assessments
 - Technology assessments

- Organizational Development
- Strategic organization and cultural enrichment
 - Management transition support
 - Management training programs
 - Comparative analyses of NASA and Industry standard

- Research & Development
- R&D implementation support
 - Engineering and project management forums support
 - Support for integration activities between NASA and educational and research organizations

- Web-based Solutions
- Portals, training modules, web-enabled databases
 - Electronic publishing of documents
 - Data collection and dissemination

- Software Development
- Productivity and training enhancement applications
 - Applications meeting accessibility standards of Section 508 of the Rehabilitation Act

- Logistics & Financial Support
- Logistical, financial, and administrative tracking and control programs and systems
 - Independent life cycle cost and schedule analysis
